Article 28, UNCRC: You have the right to a good quality education. You should be encouraged to go to school to the highest level you can.

Ensure that you can demonstrate fluency within Mathematics through daily practice and challenges so that you can apply a range of mental methods to solve problems so that you can progress as expected or beyond expectations.

We aim to ensure that more of you make better progress in Reading, Writing and Maths by ensuring everyone is challenged to do their very best.

Teachers and PSAs help you to understand what and why you are learning and how you can use what you have learned. You know how well you are progressing and are able to plan next steps with staff.
