Curricular Areas

In **Numeracy**, our focus will be money. We will investigate budgeting, profit and loss and different ways to spend and save money. These skills will help us when participating in our Enterprise topic. Strategies for addition and subtraction, and for problem solving will also form part of our numeracy work.

In **Literacy**, working in groups, we will be reading books from the Big Cat reading scheme. We will consolidate the Active Literacy strategies we have learned so far. Our functional writing will be linked to our Enterprise topic, with persuasive writing and posters being written. We hope to improve our presentation skills as we take part in the "Dragons' Den" experience.

In **Health and Wellbeing**, we will enjoy P.E twice weekly and will participate in the Daily Mile. This term we will be developing our gymnastics and running skills. The UN Rights of the Child will be explored, and we will find out what impact these rights have on our lives. We will also continue to investigate mental health and wellbeing, looking at resilience following the BEANO 'Bouncebackability' program.

In **Interdisciplinary Learning**, our Enterprise for the school Fair will allow us to develop skills for life. Investigating how to run a business and working collaboratively, will be exciting for our class. We are looking forward to being a success and presenting our products to you at our Christmas School Fair!
